A GRAND OLD POEM.

Who shall judge a man from manners?
Who shall know him by his dress?
Paupers may be fit for princes,
Princes fit for something less.
Crumpled shirt and dirty jacket
May beclothe the golden ore
Of the humblest thoughts and feelings—
Satin vests could do no more.

There are springs of crystal nectar
Ever welling out of stone;
There are purple buds and golden,
Hidden, crushed and overgrown;
God, who counts by souls, not stations,
Loves and prospers you and me;
For, to him, all vain distinctions
Are as pebbles in the sea.

Toiling hands alone are builders
Of a nation's wealth or fame;
Titled laziness is pensioned,
Fed and fattened on the same:
By the sweat of others' foreheads,
Living only to rejoice,
While the poor man's outraged freedom
Vainly lifted up his voice.

Truth and justice are eternal,
Born with lovelinness and light,
Secret wrongs shall never prosper,
While there is a sunny right;
God, whose world-heard voice is singing
Boundless love to you and me,
Sinks oppression with its titles,
As the pebbles of the sea.

MOTHER'S PRAYERS.—Said a young man who was far away from home and all its restraining influences, "Were it not for the remembrance I have of my mother's prayers, I should sink down into the depths of many a sin; but there comes to me the image of my mother with her earnest look, her sweet voice. I almost hear her in the distance praying only as true Christian mothers can pray. Mother believes *I* shall sooner or later be one of the followers of Jesus, and I believe *her* prayers, under God, are to save me."

Mothers, think well what this youth declares; remember what fearful responsibilities rest upon you; God has placed them there.—Are you true to them?

ERRONEOUS ESTIMATE OF BOYS.—Douglas Jerrold was considered a dull boy; at the age of nine years he could scarcely read.

Goldsmith was a very unpromising boy.

Dryden, Swift and Gibbon in their early pieces did not show any talent.

The mother of Sheridan, herself a literary woman, pronounced him to be the dullest and most hopeless of her sons.

The father of Barrow is said to have exclaimed: "If it please God to take away any of my children, I hope it will be Isaac."

The injudicious parent regarded the lad as a miracle of stupidity, but afterward he proved the glory of his family.

THE USE OF TIME.

Time has been given to man to use and not to waste. It is for rational use and not for foolish abuse. And at times it appears to the reflecting mind that we are mistaken in our endeavors to crowd into half an hour what should fill half a day. We do not refer to our habits of hurried eating, so frequently the subject of critics and lecturers, but to the general hurry and haste that characterize every movement of our people. In traveling we give preference to the fastest lines, this being the grand recommendation of one competing line over another. The annihilation of space and time is a modern boast, as though the feat were really meritorious.

It is to be questioned whether this idea is a correct one. Human life is more valuable than a few hours or days, yet we risk life and limb in patronizing those conveyances which run the longest possible distance in the shortest possible time. The employees of railroad and steamboat companies have received the title of "baggage smashers," for no reason except that the rules of the companies and the exacting demands of the public will not allow them to handle baggage as Tom Hood advised the management of the body of the despairing suicide:

"Take her up tenderly,
Handle with care."

It is a public demand that everything shall be done in the shortest possible time, but it is a wasteful and often suicidal demand. We do not "live out half our days." If we exist the allotted space of man's life we do not live. We are driven by this spirit of hurry as relentlessly as the poor souls in Dante's Inferno by the tormenting devils of Hades.

A TOUCHING PASSAGE.—How eloquently does Chautaubriand reply to the inquiry "Is there a God?" Our French brethren in Masonic error should receive this lesson from their countrymen:

"There is a God! The herbs of the valley, the cedars of the mountain, bless Him; the insect sports in his beam; the elephant salutes Him with the rising orb of day; the birds sing Him in the foliage; the thunder proclaims Him in the Heavens; the ocean declares his immensity. Man alone has said there is no God. Unite in thought at the same instant, the most beautiful objects in nature. Suppose you see at once all the hours of the day and all the seasons of the year; a morning of spring and a morning of autumn; a night bespangled with stars, and a night covered with clouds; meadows enameled with flowers and forests hoary with snow; fields gilded by tints of autumn: then alone you will have a just conception of the universe.

While you are gazing upon that sun which is plunging under the vault of the West, another observer admires him emerging from the gilded gates of the East. By what inconceivable magic does that aged star which is sinking fatigued and burning in the shades for the evening, re-appear the same instant fresh and humid with the rosy dews of morning? At every instant of the day the glorious orb is at once rising, resplendent at noon-day, and setting in the West; or rather our senses deceive us, and there is properly speaking no East, West, or South in the world. Everything reduces itself to a single point, from whence the King of Day sends forth at once a triple light in one substance. The brightest splendor is that perhaps which nature can present, that is most beautiful, for while it gives us an idea of the perpetual magnificence and resistless power of God, it exhibits at the same time a shining image of the glorious Trinity."

THE SECRET.—"I noticed," said Franklin, "a mechanic among a number of others, at work on a house erecting but a little way from my office, who always appeared to be in a merry humor, who had a kind and cheerful smile for every one he met. Let the day be ever so cold, gloomy or sunless, a happy smile danced like a sunbeam on his cheerful countenance. Meeting him one morning, I asked him to tell me the secret of his constant happy flow of spirits. 'No secret, Doctor,' he replied. 'I have got one of the best of wives, and when I go to work she always has a kind word of encouragement for me, and when I go home she meets me with a smile and a kiss; and then tea is sure to be ready, and she has done so many little things through the day to please me, that I cannot find it in my heart to speak an unkind word to anybody.' What influence, then, has woman over the heart of man, to soften it and make it the foundation of cheerful and pure emotions! Speak gently, then; greeting after the toils of the day are over, costs nothing, and goes far toward making home happy and peaceful.

SILENT INFLUENCES.—It is the bubbling spring which flows gently, the little rivulet which runs along, day and night, by the farm house, that is useful, rather than the swollen flood or warring cataract. Niagara excites our wonder, and we stand amazed at the power and greatness of God there as he pours it from the "hollow of his hand." But one Niagara is enough for the continent or the world, while the same world requires thousands and tens of thousands of silver fountains and gently-flowing rivulets that water every farm, and meadow, and every garden, and that shall flow on every day and night with their gentle, quiet beauty. So with the acts of our lives. It is not by great deeds, like those of the martyrs, that good is to be done, but by the daily and quiet virtues of life, the Christian temper, the good qualities of relatives and friends.

He is the most thoroughly educated man who derives his knowledge not from books alone, nor from men alone, but from the careful and discriminating study of both. A truly learned man is liberal towards opponents, tolerant of error, charitable toward frailty and compassionate toward failure. Only the ignorant and half educated are dogmatical, illiberal and intolerant.

A TRUE LADY.—I was once walking a short distance behind a very handsomely dressed young girl, and thinking, as I looked at her beautiful clothes, I wondered if she takes half as much pains with her body?"

A poor old man was coming up the walk, with a loaded wheelbarrow, and, just before he reached us, he made two attempts to go into the yard of a small house; but the gate was heavy, and would swing back before he could get through.

"Wait," said the young girl, springing lightly forward, "I'll hold the gate open."

And she held the gate until he passed in, and received his thanks with a pleasant smile, as she went on.

"She deserves to have beautiful clothes," I thought, "for a beautiful spirit dwells in her breast."—Lee.—*Little Corporal.*

PRAYER is the silver trumpet of the saints. When they walk; it is the hatchet of the sandal; when they wrestle, it is the knot of the girdle; it is the golden key of heaven, by which the child has access to his Father's treasures.

HOW TO AVOID A BAD HUSBAND.

1. Never marry for wealth. A woman's life consisteth not in the things she possesseth.

2. Never marry a fop who struts about dandy-like, in his gloves and ruffles, with a silver cane and rings on his fingers.

3. Never marry a niggard, close-fisted, mean, sordid wretch, who saves every penny, or spends it grudgingly. Take care lest he stint you to death.

4. Never marry a stranger, whose character is not known or tested. Some females jump right into the fire with their eyes wide open.

5. Never marry a mope or a drone, one who drawls and draggles through life, one foot after another, and lets things take their own course.

6. Never marry a man who treats his mother or sister unkindly or indifferently. Such treatment is a sure indication of a mean and wicked man.

7. Never on any account marry a gambler, a profane person, one who in the least speaks lightly of a God or religion. Such a man can never make a good husband.

8. Never marry a sloven, a man who is negligent of his person or his dress, and is filthy in his habits. The external appearance is an index to the heart.

9. Shun the rake as a snake, a viper, a very demon.

10. Finally, never marry a man who is addicted to the use of ardent spirits. Depend upon it, you are better off alone, than you would be tied to a man whose breath is polluted, and whose vitals are being gnawed out by alcohol.

WONDERS.—When a young man is clerk of a store and dresses like a prince, smokes "foreign cigars," drinks "nice brandy," attends theatres, dances, and the like, I wonder if he does all on the avails of his clerkship?

When a young lady sits in the parlor during the day, with her lily white fingers covered with rings, I wonder if her mother doesn't wash the dishes and do the work in the kitchen?

When the deacon of the church sells strong butter, recommending it as a good article, I wonder what he relies upon for salvation?

When a lady laces her waist a third less than nature made it, I wonder if her pretty figure will not shorten life a dozen years or more, besides making her miserable while she does live.

When a young man is dependent upon his daily toils for his income, and marries a lady who does not know how to make a loaf of bread or mend a garment, I wonder if he is not lacking somewhere, say towards the top, for instance.

THINKING ALOUD.—Lord Dudley had been invited to the house of a friend upon the occasion of some great fete, but being a man of early habits, had ordered his carriage at a certain hour, having some miles to travel before he could obtain his accustomed repose. To his great mortification, after repeated inquiries for Lord Dudley's carriage, it had not arrived, and his lordship as well as others imagined that some accident must have happ

For Judge of the Supreme Court,

HON. HENRY W. WILLIAMS,

OF ALLEGHENY COUNTY.

REPUBLICAN STATE CONVENTION.

This body met on Wednesday last, in Williamsport, to nominate a candidate for Judge of the Supreme Court; and was called to order by Hon. FRANCIS JORDAN, Chairman of the State Committee, who, in a few handsome remarks, recited the results of last fall's campaign, and consequences which have flowed from it. General JAMES L. SELFRIDGE, of Northampton, was chosen temporary Chairman. Committees were appointed on Permanent Organization, and on Resolutions. Mr. WIBLE of this county was on the former, and Mr. MCPHERSON on the latter. The former Committee, through Hon. JOHN H. WALKER of Erie, its chairman, reported a list of officers. Hon. JOHN SCOTT of Huntingdon county, was elected the permanent President. WM. ADAMS, Esq., of Franklin, was the Vice President for this Senatorial District. On taking the Chair, Mr. SCOTT made these very effective remarks:

GENTLEMEN OF THE CONVENTION:—I need hardly state to you in my appearance in the State Union Convention, I come in a peculiar position. I did not know what might be said of me when my name should be mentioned; indeed, I do not recollect when I have been talked about so much as t -day. In addition to this I am called to preside over a body in which are numbered many men qualified by their legislative experience to preside over a deliberative body, and I come before you having no experience of that character. I thank you, gentlemen, for the kindness and partiality which have called me to this position, and I invoke your forbearance if I fail in the discharge of my important duties.

It is not my purpose to detain you with any lengthy address, for this call has been to me so utterly unexpected that I do not feel prepared to talk to this Convention upon the issues which may be involved in the coming election in such a manner as they should be discussed in a convention of this character. We are called upon to make a nomination of a candidate for the Supreme Bench, and whatever may be said about the propriety or non-propriety of introducing politics in a judicial convention, no man ought to shut his eyes to the fact that in all elections for some years to come the position which men have occupied during the late Rebellion will enter more or less into the canvass. (Cheers.)

There are fundamental questions about the structure and powers of government, which are far more important than any question of mere political expediency can be, and we have arrived at a time in the history of our country when we cannot, ought not, look with indifference upon the opinions which our judicial officers have to express upon the structure and powers of our government. Call it politics if you will, it is politics which involves the very life of this nation. It is the kind of politics which Chief Justice Chase alluded to in his opinion delivered in North Carolina, and that opinion is worth more than all the legal opinions expressed since the Rebellion began, when he said, there was a class of legal opinions to which events must give the answer and the warrant. (Cheers.)

It is highly important for us that we place in nomination to-day, a man who will agree to the proposition that there are legal questions to which events have given reply. Treason, traitors—that's the word—Traitors in the interest of slavery made the effort to destroy this government. Loyalty in the interest of freedom resisted the attempt, and has preserved us thus long. Thank God for it. (Cheers.)—But whether it be the election of a Governor, of a Congressman, of a legislator, of a President, or of a Supreme Judge, the question will come up to every man's mind, and upon that question every election will be contested for years to come. That question is: Is it safer to entrust the destinies of this government in the hands of those who have saved it, or turn them over to those who made the effort at rebellion, or sympathized with its progress?

It is a significant fact that this Rebellion was preceded by the opinion of an Attorney-General, which denied the right of the General Government to coerce the citizens of a State in rebellion against the United States. It is another significant fact that the candidate presented by the Democratic party within the last few weeks has appropriated all there was left of that opinion, has had his legal and constitutional views endorsed by the author of that opinion; and he thus goes into the contest saddled with the burden of Jeremiah S. Black's dead and buried anti-coercion Opinion. There could be no greater weight for a party to carry, for the opinion of that Attorney-General has been buried as useless rubbish beneath the bones and blood and bodies of those who gave their lives to refute it.—[Long-continued applause.] We are met now when another opinion of another Attorney General has been invoked to save the veto message which was attributed to his authorship, and given to the world through Andrew Johnson, President of the United States, that Congress had not power to legislate for the land it had saved, and who, the logic of that message failing, now endeavors to construe the law so as to defeat the well-known legislative intent which passed, and which formed it. But, thank God again we are met too, just following the time when Sickles and Sheridan [great applause, in which the voice of the speaker was drowned]——we are met upon the eve of the meeting of Congress, called for the purpose of putting in unmistakably a law which no legal sophistry can sweep away. That we expect them to do. We have control, through the legislative department of the Government, of the destinies of the nation. We may say that we have control of the ship of state; and even if the man (it is an impromptu metaphor; I do not know where it may end); if the man who has charge of the light-house shall seek to obscure the lantern from the vessel at sea and run it on the rocks, thank God we have a crew on the vessel that has learned the coast and can save themselves. It is for us then, to find among the distinguished gentlemen presented to this convention as candidates one who accepts the logic of events and one who will say, with that admirable opinion to which I have referred, that the man under this Government who goes into resistance against it, can come out of that resistance in only two ways—either as a successful revolutionist or a traitor—one who will say that crime is not absolved from its penalty by either its magnitude or respectability; one who will rally to himself the confidence and support and votes of all loyal men; for, while we are here pressing the claims of our respective candidates, it is a gratifying feature to know that none are presented who are not worthy of the support of the loyal men of this State. Let us come together, then, in this spirit of generous rivalry for our friends, and keep in view always the importance of keeping together this organization. Whatever differences may exist upon minor or subordinate questions, we all will agree in keeping in view the issues which are involved in the success of the Union party.

Nominations were then made, as follows:

HENRY W. WILLIAMS, of Allegheny.
M. RUSSELL THAYER, of Philadelphia.
SAMUEL LINN, of Centre.
WILLIAM BUTLER, of Chester.
JOHN J. PEARSON, of Dauphin.
ISAAC G. GORDON, of Jefferson.
JOSHUA COMLY, of Montour.
THOMAS E. FRANKLIN, of Lancaster.
GEORGE TAYLOR, of Huntingdon.
EDWARD OWEN PARRY, of Schuylkill.

There were nine ballots. On the ninth, Judge HENRY W. WILLIAMS, of Pittsburg, was nominated, having received 65 votes, Mr. THAYER 40, and Judge LINN 23. The nomination was then made unanimous amid general applause.

At the evening session, the Committee on Resolutions reported through Mr. MCPHERSON, their Chairman, the following resolutions, which were unanimously adopted:

The Republicans of Pennsylvania, appealing again to the people, take pleasure in recalling the repeated occasions on which the voters of the Commonwealth have sustained and ratified their candidates and principles; and, strongly impressed with the importance of the issues involved in the ensuing election, make this declaration of their opinions and purposes:

First. That, in the name of the Nation saved from treason, we demand security against its repetition by exacting from the vanquished such guarantics as will make treason so odious as to be forever impossible.

Second. That, as in the past we cordially justified the administration of ABRAHAM LINCOLN in all necessary acts for the suppression of the rebellion, we record it as our judgment that the administration of ANDREW JOHNSON has been chiefly faithless, in that it has failed to try to gather up and fix in the organic and statute law the great principles which the war has settled, and without whose adoption as a rule of action peace is but a delusion and a snare.

Third. That, in the completion of the task of reconstruction so firmly as to be perpetual, it is indispensable that traitors beaten in the field shall not find a sanctuary in the courts; that the law shall not be tortured to justify or palliate the crimes of which the country's enemies have been guilty; and that the law of the War shall be so distinctly declared by the courts that no disturbing and paralyzing doubts may ever be raised, as in 1861, respecting the essential rights of the Government or the personal duties of the citizen.

Fourth. That this Convention, speaking for the Republicans of Pennsylvania, unreservedly endorse the Reconstruction measures of the Thirty-ninth and Fortieth Congresses as based upon sound principles, essentially just and wise, and promising an early, loyal and permanent restoration of the Rebel States to their proper share in the government of the Union. That we denounce and contemn the efforts of President JOHNSON, through his pliant Attorney General and a majority of his Cabinet, to evade those laws by interfering to obstruct and prevent their enforcement in the spirit in which they were enacted; and that we call upon Congress, soon to meet, promptly and decisively to dispose of this new Nullification.

Fifth. That the thanks of the loyal men of this Commonwealth are hereby tendered to Major General SHERIDAN and Major General SICKLES for their publicly-declared unwillingness to be instrumental, in the startling and truthful words of the former, in opening, under Presidential dictation, "a broad, macadamized road for perjury and fraud to travel on," to the coveted re-possession of political power in the rebel States; and that this Convention confidently expect that General GRANT will vindicate his past record by cordially sustaining them in their patriotic efforts to execute the law.

Sixth. That President JOHNSON further merits our condemnation for his reckless pardon, and attempted restoration to political rights, of many of the chief conspirators against the Union; and that especially his persistent efforts to compel the release of JEFFERSON DAVIS, without question for his crimes, were a reproach to the administration of justice and an insult to the whole loyal people of the Nation.

Seventh. That warned by past misfortunes, we ask that the Supreme Court of the State be placed in harmony with the political opinions of the majority of the people, to the end that the Court may never again, by unjust decisions, seek to set aside laws vital to the nation, nor imperil the safety of public securities, nor impair the operation of the bounty, pension and tax laws which were required for the public defence, nor in any way thwart measures which were deemed essential to public protection: but that, on the other hand, it may become and remain a fit and faithful interpreter of the liberal spirit of the age, a bulwark of public faith, and an impartial and fearless exponent of the equal rights of man.

Eighth. That Protection being a cardinal feature of the Republican creed, we trust that such legislation will be secured at the earliest practical period as will afford adequate protection to American Industry.

Ninth. That, in conformity with the pledges given last fall by both candidates for Governor, we now demand the enactment of a free railroad law, by which the enterprise of our people may be stimulated, and the resources of the Commonwealth developed.

Tenth. That in GOV. JOHN W. GEARY we recognize an honest and courageous public servant, who, in the Chair of State, is adding freshness to laurels gallantly won in war.

Eleventh. That the gratitude of the people to the soldiers and sailors, whose bravery met and overthrew the slaveholders' rebellion, should have repeated and emphatic expression; and that we heartily disapprove of and condemn the course of the Secretary of the Treasury in postponing and ignoring the just claims of our brave defenders upon the bounty of the Government, awarded to them by the National Congress.

Twelfth. That in the Hon. HENRY W. WILLIAMS, of Allegheny county, we present to the people of Pennsylvania an eminent jurist; one in every way well qualified for the responsible duties of the office of Judge of the Supreme Court; able as a lawyer; impartial, prompt, and thorough as a judge; honest, upright, without suspicion as a man, and loyal and unwavering in his devotion to the cause of his country.

The resolutions demanding guaranties for the future, condemning the course of ANDREW JOHNSON, referring to GRANT, SHERIDAN and SICKLES, demanding the enactment of a free railroad law in Pennsylvania, and requiring the fulfillment of promises to the soldiers of the Union, were rapturously cheered.

A resolution was then adopted thanking Col. JORDAN for the efficient manner in which he performed the duties of the Chairmanship of the State Committee last year, re-appointing him for the present year, and providing for the appointment of a new Committee. A committee of five was appointed to notify Judge WILLIAMS of his nomination, of which WAYNE MCVEAGH, Esq., is Chairman. Resolutions of thanks to the officers and others, were passed; and the Convention adjourned *sine die*.

The session was short, the result satisfactory, and the campaign has opened most auspiciously. There is no reason to doubt, that the people of Pennsylvania intend, in fall, to make their Supreme Court thoroughly loyal, and to secure themselves against the dangers which would threaten if Democratic ascendency in it were maintained. The people will take no step backward, till Reconstruction is complete, and the Union restored on principles of loyalty and justice.

WE give on an outside page, the resolutions of the Democratic State Convention, recently held in Harrisburg. On the inside, will be found the resolutions of the Republican Convention.

We have expressed our opinion of the former, though we have not dwelt upon all, or even their worst features. From the beginning to the end they are unsound, as guides for legislative, executive, or judicial officers. The second resolution embodies covertly the foundation-principle on which rests the whole doctrine of the Secessionists; for it implies the *limited* supremacy of the General Government, and the *general* sovereignty of the States; and it implies, further, that the American People are not a Nation, but only a league of independent sovereignties. The other resolutions all proceed upon the general theory, that the Government has no rights, but that the Rebel States are entitled to dictate the time and mode of their return to the control of the Nation. If Judge BLACK had specially tried to please JEFFERSON DAVIS with his resolutions, he could hardly have improved, by changing, them.—Certain it is, it the *principles* of these resolutions had governed the people, the last four years, the Rebellion would have been successful, our effort at self-preservation a failure, and the American Nation would have been rent in twain. The people, all through the War, contemned these fatal follies. They will not heed them now, when they are about to reap abundant fruits from their heavy and costly sacrifices.

THE Memphis *Avalanche* of a recent date refers to the recent proclamation by the Czar of Russia, extending a general amnesty to the Poles engaged in the late insurrection; and it claims that the Southern Rebels are entitled to as liberal treatment from the Government of the United States.

The *Avalanche* forgets that the Czar has not given the pardoned Poles the political control of his government, or even of Poland. Amnesty in Europe does not signify clothing with political rights. It merely means security against personal punishment.

The leaders of the late Rebellion want not only security against punishment, but restoration to office and political power. It is one thing to consent to the former. It is quite another to make them our governors, law-makers and Presidents. Let the men who were guilty of the crime of precipitating the country into a four years' war, with its attendant waste of life and treasure, remember that they have no *rights*. All they have, is of the *grace* of the American people.—Their record of shame should impel them to modesty of claims.

A FEW years ago, the Democratic press teemed with the most vituperative comments upon "Helper's Impending Crisis;" and, it will be remembered, JOHN SHERMAN'S election to the Speakership of the House of Representatives was resisted to the bitter end, and prevented, because he had thoughtlessly endorsed a proposal to circulate a cheap edition of the obnoxious book. HELPER was then a Democratic synonym of infamy.

But Democratic opinion of HELPER will be apt to change, for he has just written another book, which has been published by CARLETON in New York, in which he denounces the "hell-hatched and hell-doomed Ethiopians;" scouts at the idea of colored persons being citizens of the United States; and insists upon their forcible extinction from the continent! Precisely what has wrought this change we do not pretend to know, but HELPER is evidently very near Democratic sainthip.

FORTY-ONE suits against Col. JOHN H. GRIDER, formerly a officer in the Union Army, to recover $100 each, assessments levied by him on citizens of Kentucky, to remunerate Union men for the depredations of rebels, were dismissed in the United States Court, at Louisville, on the 15th ult., upon the motion of the plaintiffs. But for Congressional legislation to protect him, the Democratic Judges in Kentucky, would have, doubtless, been glad to harass this officer for acts done by him in the performance of military duty. As it is, he "stands acquit," and the Judges referred to, and their sympathizers of Rebel proclivities, can only gnash their teeth with rage, and growl over this "denial of justice."

SOME of the Democratic papers are trying to hold the Republican party responsible for the failure to try JEFFERSON DAVIS. The Republicans of Pennsylvania, have declared themselves on that subject. But it is worthy of note that the Democratic State Convention, recently in session, *wholly dodged that question*. As on the Free Railroad law, it has no opinions on the arch-traitor's release; or if it has any, it is afraid to express them.

CONGRESS will meet on the 3d inst., with a quorum in each House. Some of the Democratic editors have been making themselves happy over the prospect of there not being a two-thirds majority in the Senate in favor of proper legislation on Reconstruction. These gentlemen will be undeceived in time. There will be enough Republicans there to "take care of" the amiable and "humble individual" who now fills accidentally the Executive office.

IN the Report of the proceedings of the Republican State Convention, given by the Philadelphia *Inquirer*, it is stated that Hon. EDWARD MCPHERSON received three votes for Supreme Judge.

This is a mistake of the reporter, or the telegrapher. Mr. McP. was a delegate to the Convention, and was one of the officers, and reported the Platform; but he was not a candidate for the nomination and received no votes.

THE prompt re-assembling of Congress so as to correct the President's attempt to nullify the recent legislation of Congress, is very galling to the Rebels, and their Democratic allies. Gentlemen, keep cool; the Rebellion wasn't triumphant, and must not be.

IT is a curious fact that both candidates for Supreme Judge are Elders in the Presbyterian Church—Judge SHARSWOOD in the Old School Branch, Judge WILLIAMS in the New.

A MONUMENT to Mr. LINCOLN is to be erected in Atlanta, Georgia. Much of the money has been subscribed by freedmen.

REPUDIATION.

Democrats begin to talk boldly in favor of repudiation. Hon. HENRY CLAY DEAN of Iowa, a leading Democrat, recently made a speech in which he maintained that the present National Debt was illegally contracted, and ought not to be paid.

The Winchester (Va.) *News* quotes the fact approvingly. The Memphis *Appeal* comforts itself for the poverty of the South, by the reflection that, "we shall thus contribute little toward the payment of the National Debt." The Memphis *Bulletin* says the word "Repudiation" which was only faintly whispered a few months back, "is now being boldly spoken at the street corners."

There is little doubt about the disposition of the "secesh" leaders of the South, or of a portion of the Democratic leaders of the North, to attempt the policy of scaling, if not repudiating the debt which was created in saving the Nation. If the South should be restored otherwise than on the Congressional plan, trouble on this point may be reasonably anticipated. But the Congressional plan makes all safe, by requiring the repudiation of the Rebel Debt, and the payment of our own.

THE seventh resolution of the Republican platform has great significance and importance when it is remembered how frequently during the war, the power of Courts was sought to check the movements of the Government.

In 1861, on the threshold of the Rebellion, Judge BLACK, then Attorney General of President BUCHANAN, stimulated the Rebellion by giving the Opinion, officially, that there was no rightful power in the Nation to suppress insurrection. It is presumed this is Judge SHARSWOOD's opinion, as Judge BLACK has endorsed him as having no "unsound spot on him."

In Pennsylvania, the Democratic majority of the Supreme Court, in 1863, declared the Draft Act unconstitutional, and if that Opinion had not, immediately after, been overruled by Judge AGNEW'S vote, (who had just been elected), our State would have been involved in direct conflict with the General Government, or our own citizens probably with each other, over this deeply important question. The same convention which nominated Judge SHARSWOOD, endorsed Judge WOODWARD who was the head of this sub-conspiracy in the interest of the great conspiracy, the Rebellion itself, and who gave the atrocious Opinion in question.

In 1864, Judge SHARSWOOD himself tried to get his Court in Philadelphia, to declare that U. S. Treasury Notes were not a "legal tender" in the payment of debts. This was another dodge of the enemies of the Government and the sympathizers with the Rebellion. Judge SHARSWOOD'S two colleagues—Judges STROM and HARE—overruled him; but the public can learn from this what sort of law may be anticipated from the Supreme Bench of the State, if Judge SHARSWOOD should hold the balance of power. Our present National securities would stand no chance whatever.

WE congratulate SCHUYLER COLFAX. The Democratic newspapers have begun to abuse him.

TEMPERANCE.—The Grand Lodge of Good Templars which met at Pitsburg several weeks since, adopted the following platform:

1. Total abstinance from all intoxicating liquors as a beverage.

2. No license in any form, or under any circumstances, for sale of liquors, to be used as a beverage.

3. The ABSOLUTE PROHIBITION of the manufacture, importation and sale of intoxicating liquors for such purposes—prohibition by the will of the people expressed in due form of law, with the penalties deserved for a crime of such enormity.

4. The creation of a healthy public opinion upon the subject, by the active dissemination of truth in all the modes known to an enlightened philanthropy.

5. The selection of good, honest men to administer the laws.

6. Persistence in efforts to save individuals and communities from so direful a scourage, against all forms of opposition and difficulty, until our success is complete and universal.

FROM MEXICO.

Execution of Maximillian—Capture of the city of Mexico.

Official despatches have been received at Washington, by the Austrian minister, announcing that Maximillian was executed, by shooting, on the 19th of June, and that President Juarez refused to deliver his remains to his friends. A similar despatch was received by the Secretary of the NAVY, from Commander Poe, of the U. S. Steamer Tacony, at Vera Cruz.

The city of Mexico surrendered on the 20th to the Liberals. Vera Cruz holds out on account of the Foreign legion. Santa Anna had been captured by the liberals, while endeavoring to land with a party hostile to Juarez.

THE Sharswood Democracy resolved at Harrisburg—First, that "the Union of the States is perpetual," and secondly, that the radical majority in Congress have "dismembered the Federal Union."

We cannot exactly conceive of a thing existing in perpetuity as a whole, after it is torn limb from limb, but we infer this is what was meant by the Democracy a few years since, when they declared themselves in favor of the Union, and yet insisted it had not the right to prevent itself from being torn asunder.—*Somerset Herald.*

IMPORTANT DECISION.—Chief Justice CHASE, in a recent case, in the Circuit Court of the United States, decided that compulsory payment, under Rebel sequestration acts, to the Rebel Government, of debts due to Northern merchants, does not discharge the indebtedness, and ordered judgment to be given in favor of the Plaintiff, a merchant of Philadelphia, for debt and interest, although it was proven that the defendant had, during the Rebellion, paid the amount over to the Rebel Government. This decision is of great importance to parties in the North who have debtors in the late Rebel States.

THE question as to what authority a teacher exercises over his pupils was decided a few weeks ago in the Montgomery county court, wherein a teacher was sued for chastising a pupil with a rod for disobedience. The Judge in his charge to the jury, said that a teacher occupied the position of *locus parentis* towards his pupils while under his charge, and the jury sustained his opinion, and rendered a verdict in favor of the teacher. Order is the first law of nature, and the teacher without authority to enforce obedience, would be unable to correct or punish, and thereby render the common school system a mere farce. The rod is indispensable at times in the school room.

Local Items.

☞ Several articles prepared for to-day's paper, have been crowded out.

AGRICULTURAL FAIR.—The Fair of the Adams County Agricultural Society will be held the last week in September—the 24th, 25th, 26th and 27th. Full particulars will be given hereafter. The York and Cumberland county fairs will be held the preceding week.

FAREWELL SERMON.—Rev. J. R. WARNER on Sunday last delivered at Marsh Creek Church, his Farewell Sermon to his Congregation, The attendance was large.—Mr. W. left on Monday for Chambersburg, and expects to enter on his new field at Kirkwood, Mo., in about a month. He will be much missed in this community.

BITTEN BY A DOG.—A child of a gentleman named KROFT, residing in Oxford township, near Irishtown, was bitten by a dog on Wednesday of week before last. The dog, it appears, belonged to Mr. K. and was chained at the time the child was bitten. Shortly after biting the child the dog became raving mad, and had to be killed.

POSTAL CURRENCY.—The mutilated postal currency, of which there is an abundance floating about from hand to hand, ought to be gathered up and sent to the Treasury for redemption. It will be redeemed when presented in sums of $5 to the U. S. Treasury. The merchants are the ones to do this. It will cost but a trifle and would rid the country of a decided nuisance.

HORSE RECOVERED.—The horse stolen recently from JOHN HARTMAN, which was insured and for which a reward was offered by the Insurance Company, was recovered near Blood Run, Bedford county, and brought on by Mr. GROVE. The thief unfortunately escaped, though pursued. He had been staying in this neighborhood, for some days before committing the theft.

☞ The Commencement Exercises of Lutherville Female Seminary took place on Thursday last. Prof. FERRIER, of this place, delivered the address to the graduating class—his theme being incompleteness of our education at every stage of life—the indefinite capacity of the mind for improvement, and the incentives for mental culture. To those who known Prof. FERRIER, we need scarcely say that it was a scholarly effort.

ANOTHER LONG FAST.—Mr. CORNELIUS DAUGHERTY, of this place, has a Brahma hen, which, some time ago, did without food or water for the period of three weeks and four days! In throwing a lot of hay into a mow, the hen was accidentally covered, and in such a position as to be unable to extricate itself—but near enough to a partition to allow it air. In removing the hay for daily feeding, the hen was reached after the laps of the time stated. She was when found too weak to walk, but is now all right again.

The Stores and places of business will be closed, as usual, during the day. The POST-OFFICE will be open from 6 to 7 A. M., and from 6 to 7 P. M., and closed during the remainder of the day.

In addition to the N. Y. Military, who will be here, we hear a rumor that one of the York companies also contemplate spending the day here.

NORMAL SCHOOL.—Mr. SHEELY'S Normal School closed on Friday last with a public examination. Our engagements prevented us from attending, but we understand that it was an interesting and creditable affair. At the close Miss HIZARD (on behalf of the school) presented Mr. SHEELY with a beautiful photographic album, while Miss CHRONISTER presented Mrs. SHEELY a silver salt-cellar and spoon—each accompanying the gift with complimentary remarks, which were appropriately responded to by Mr. S. The evening entertainment wound up by Mr. S. and lady inviting the school to partake of ice-cream, cake, &c., which had been liberally provided for the occasion. The School has proved an entire success.

COLLEGE ITEMS.—The Senior examination took place at the College on Friday. They all passed, 15 in number. The Latin Salutatory has been assigned to CHARLES S. ALBERT of Turbutville; the Vale dictory to WM. E. FARSON of Milton. The Commencement Exercises will take place on Thursday, the 8th of August. On the morning of the day preceding, the Junior Exhibition will be held; in the afternoon, Rev. Dr. JOSEPH A. SEISS of Philadelphia will address the Societies; and in the evening, there will be a discourse before the Alumni by Rev. V. L. CONRAD of New York City. COMMENCEMENT.—The Commencement exercises of Mt. St. Mary's College, near Emmittsburg, took place last Wednesday, with the customary accompaniment of music, distributions of premiums, &c. The attendance was large, and everything passed off pleasantly. The degree of A. B. was conferred on the graduating class, viz: Joseph A. White, Baltimore; Charles A. McNamee, Jr., Washington; Thomas M. Chatard, Baltimore; Andrew J. Joyce, Washington; John J. Maguire, Cavan, Ireland; James A. Kelley, Wilmington, Delaware;—and that of A. M. upon Thomas W. Kenney, Philadelphia; Joseph F. Corrigan, Newark, N. J.; Joseph A. Livers, Mechanicstown, Md.; John A. Watterson, Blairsville, Pa.; Martin F. X. Fallon, Baltimore; Patrick Garvey, Johnstown, Pa. The closing exercises at the Sisterhood (St. Joseph's Academy) took place on Thursday, in presence of a large number of visitors, and were unusually interesting.

EAST BERLIN.—A friend sends us the annexed items in regard to recent improvements in that place, viz:

JOHN J. KLINE has erected a very large and handsome two story Brick House for a store and dwelling. The room is a very large one, having an open front of modern style and will be one amongst the finest in the county.

DUCT. J. A. ARMSTRONG has also erected a large two-story Brick House for a Drug Store and Apothecary and dwelling. The room for the Drug Store and Apothecary will be one of the best in the county, having an open front and is about being finished in a very neat manner.

GEORGE KING has in course of erection for a dwelling a fine two story brick—and ALBERT TSCHOP a two story frame dwelling.

SIMON ALTLAND has lately within sight of town erected a fine substantial two-story Stone House and a good frame Barn—this property has a good location being near the banks of the Conewago.

Our enterprising citizen, CHARLES REBERT, has had a busy time of it at his Machine Shop. For the last four or five weeks there has been a perfect jam at times about his establishment—the street in front being perfectly blocked with teams taking away farming implements. I learn that he has sold some 70 Mowers and Reapers this spring, (the "Buck Eye.") He has also sold between 20 and 30 Corn Planters, and he and his partner (WM. MOUL) have sold between 60 and 70 spring tooth Hay Rakes, the demand thus far having been greater than the Shop could supply. Q.

FAIRFIELD.—We are indebted to a subscriber in Fairfield for annexed items in regard to improvements in that section, viz:

DANIEL KING has remodeled one of his houses on Main street, by adding another story, and newly weatherboarding, plastering and painting it. JOHN JOHNS has put a front building to his house adding very much its appearance, and EDWARD RASHE is about remodeling his house on Front street, by raising it higher and fixing it up in general. But the improvements this spring appear to be principally among the farmers. I can count within a few miles of Fairfield, five new Bank Barns belonging to the following persons: CHRISTIAN FREY, JOSEPH KITTINGER, DAVID MUSSELMAN, BARNABAS RILEY and WILLIAM HILL, all of which will be ready to put the coming harvest in. Maj. JOHN MUSSELMAN has timber ready to build a bank barn after Harvest. So you see that we are not far behind in this age of improvement. One thing we lack is, a good road from Fairfield to Gettysburg. I have often wondered why there never was a turnpike made from Gettysburg to intersect the Waynesboro' pike. Surely, when we see every other place, building's railroads and turnpikes, why should not the people of Gettysburg and farmers, in fact, all persons along said road who have occasion to travel it, go to work in earnest and have it started? They will be rewarded for their labors, and then having a good road through our tract or valley we will stand on an equality with any other portion of the county. I hope the people will give the turnpike question their attention.

☞ The subjoined communication, which originally appeared in the *Valley Sentinel* of Shippensburg, is re-published at the request of one of our subscribers, who says it embodies sentiments which meet the views of many teachers and intelligent citizens:

A WORD TO SCHOOL DIRECTORS.

There is an error existing among some of our School Boards in regard to employing teachers, which, with your permission Mr. Editor I will state for the good of all in a few simple questions:

Why do our intelligent School Directors go abroad for teachers and reject home applicants, who on any fair examination would merit any School in the neighborhood?

Why send your teachers away to become the pets of other Townships and at the same time receive as your selection the rejected ones of similar School Boards?

Why should teachers not receive the same respect from Township, Wards and Districts that Politicians do; in other words why do we not go abroad for all our officers if strangers are the best?

Why should the teacher who never receives an extra salary be required to leave home, pay boarding and spend half of all he makes in order to secure employment?

Why should all our school funds be paid out to the teachers from abroad if the financial interest of a Township is at home?

These are questions we deem worthy of consideration inasmuch as they interest Directors, Teachers and Citizens and seem to be subject to remedy.

Yours &c., CITIZEN.

LOOK OUT FOR MAD DOGS.—Our exchanges from every section of the country give accounts of mad dogs. The season of the year in which hydrophobia is most apt to develop itself, we mean the "dog days"—the warmest days of the year, is approaching and as this horrid disease is very prevalent among the canine race, persons should take due caution. An exchange says—"Mr. YOUATT, the famous veterinary surgeon, who has been bitten eight or ten times by rabid animals, says that crystals of nitrate of silver

PERUVIAN SYRUP.

A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON, supplies the blood with its LIFE ELEMENT, IRON, giving strength, vigor and new life to the whole system.

If the thousands who are suffering from DYSPEPSIA, DEBILITY, FEMALE WEAKNESS, &c., would but test the virtues of the PERUVIAN SYRUP, the effect would not only astonish themselves but would please all their friends; for instead of feeling cross, "all gone" and miserable, they would be cheerful, vigorous and active.

A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS:

I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a NEW MAN of me—infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

KNOW THY DESTINY.

MADAME E. F. THORNTON, the great English Astrologist Clairvoyant and Psychometrician, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. Those unfortunate in life, who dislike the mere features of the person you are to marry, and by the aid of an instrument of intense power, known as the Psychometer, she guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage, position in life, leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified certificate, or written guarantee, that the picture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and inclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. All communications sacredly confidential. Address in confidence, MADAME E. F. THORNTON, P. O. Box 223, Hudson, New York. [Feb. 28, 1867.—1y

SOME OF OUR CONTEMPORARIES seem to think that the triumph of their cause depended, like the fate of Berlin upon the amount of noise made. In these days of refinement and luxury, an article of real intrinsic merit is soon appreciated; hence the unbounded and unparalleled success of PLANTATION BITTERS.

This remedy has ever and always been found reliable. As a gentle stimulant and tonic appetizer it cannot be excelled. It is no doubt a sovereign remedy for stomachic disorders—for Dyspepsia, Liver Complaint, and in stimulating a healthy appetite.

JUST PUBLISHED,
NEW WORK ON SINGING.
BASSINI'S
Twenty Melodic Exercises,
IN FORM OF
SOLFEGGIOS FOR SOPRANO OR MEZZO SOPRANO VOICES,
INTENDED AS
Studies to acquire the Art of Singing.

"These exercises were composed to be used simultaneously with his system, "THE ART OF SINGING," or with *any other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile*, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and the appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil; any evasion or slurring in these respects is time and effort utterly wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and facility, and open to the student the means and resources by which great artists produce their most brilliant and profound effects.—*Watson's Art Journal.*

MOWER AND REAPER,

DODGES HARVESTER.

AWARDED the Special Diploma and Grand Medal of *Honor* as the best combined *Mower* Hand-Raking Reaper and Self-Raking Reaper—on exhibition at the great fair of the St. Louis Agricultural and Mechanical Association October 6th, 1866.

ALSO AWARDED

OHIO AND BUCKEYE PATENTS

At the great trial of Reapers and Mowers at Auburn N. Y., in July last by the New York State Agricultural Society, this Machine was awarded the preference over all others in Class No 4. This class was the most important of any as it embraced Mowing and Hand or Self-Raking Reaper in the same Machine.

This Machine has been awarded Medals and first Premiums by the Pennsylvania and Iowa State Fairs, and by hundreds of County Fairs in all parts of the country.—This Machine took the first Premium at the Adams County Agricultural Fair held at Bendersville, September 1866. Also,

BALL'S OHIO AND RUSSEL'S

SCREW POWER,

Both first-class Machines, having sold a number of these Machines in the last three years. They have given general satisfaction wherever used. We ask farmers before buying a machine to call and examine these machines before purchasing elsewhere, as they will be able to make a better selections. We could produce quite a number of certificates from some of our best Farmers in the County, but deem it unnecessary, as we warrant these machines to give satisfaction with a fair, or no sale. Insured for one season.

Extras always kept on hand. We have made arrangements to have repairing done when needed at any time and on moderate terms.

With the above we have for sale a number of valuable farming Implements.

SULKY CORN PLOUGH

Can be used for ploughing and cultivating corn—finishing one row at a time. Can also be used for hoeing by corn ground or putting in seeding—by raising the front shovels it can be used for marking out corn ground—marking two rows at a time. A Cornplanter can also be attached, planting 2 rows at a time.

CORN CRUSHERS

For crushing corn in the ear or shelled.

STEEL COMPOSITION BELLS

STEEL PLOUGHS SMYTH'S PATENT.

HAY RAKES

GRAIN DRILLS, (Wilson Guy's Patent) with Crowell's Guano attachment.

Harrisburg GRAIN FAN (Reynold's Patent) considered the best mill ever in use in this county.

THE NATIONAL

REAPERS AND MOWERS.

HOFFHEIN'S PATENTS.

THE No. 1 Machine has Two Driving Wheels. Hinge Joint and Folding Bar, making it very convenient to move from one place to another; is very simple in its construction, extremely light draught, and durable, cuts 4 feet 10 inches in grass and 5 feet 2 inches in grain; is a Self-Raker and Side-Delivery, and is capable of cutting a whole field without binding a sheaf, and does the most satisfactory work.

This Machine can also be used as a Hand Machine without injuring its qualities as a Reaper. The Machine is warranted to cut grass as well as any Single Mower that cuts the same width. It is a strong two-horse Machine—three or four can be used, if required, in hilly ground.

GREAT IMPROVEMENTS have been made for the coming season.

The Machine is also perfectly balanced, no weight on the horses' necks in Mowing or Reaping.

As you remember that at the Mowing trial last Summer in Gettysburg, in competition with 6 other leading Machines, the above named Machine was awarded the First Premium. This way if you want the best Machine.

No. 2 is a light two-horse Machine, and is differently constructed, cutting on the right-hand side; and in front of Driving Wheels, is a Self-Raker and Side Delivery.—The difference in the width of cut is 6 inches.

The shifting lever and the raising and lowering levers are both at the driver's side, and within his right foot upon a pedal and his left upon a foot step, he has the power and control of the whole machine, he can raise or lower the platform from three to fourteen inches, can throw the machine out of gear, and regulate the rake so as to make the sheaves large or small, and all this at the same time and without retarding the motion or speed of the machine.

Keep it before the people that at a fair mowing trial 7 different leading Machines were present at Dillsburg, York, co., last Summer and the National Machine was awarded the first premium.

All Machines warranted to give satisfaction! For further information apply to

NATIONAL SELF-DISCHARGING STEEL SPRING TOOTH

Horse Rake!

Patented Sept. 9th, 1862, and Re-issued Dec. 6th, 1864.

THIS Rake is an Independent Steel Spring Tooth Rake, and has proven itself to be the most perfect HORSE RAKE now in use. With this Rake the Horse does all the work, both the Raking and Discharging, by the Driver moving a lever a few inches, which throws it into gear, and as the horse moves forward it raises the teeth and discharges its load, and then shifts out of gear itself; the teeth dropping down ready to rake again. By this operation it is so easily understood that the *Raker has hardly any work to do.*

Important improvements have been made of late, making it very simple and durable in its construction. Thousands of them have been sold in the few last years and given the best kind of satisfaction.

Circulars saving a fuller description of these Machines can be had by applying to the Agent.

BRINKERHOEF'S

CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Duchy, U. S. Agent, a machine has been shipped to Paris for exhibition. One important feature in this machine is that it will shell ears large, small or crooked, perfectly clean, and separates the cob and chaff from the Corn ready for market.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edward Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the N. Y. *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufacturers more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put in the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

These World-renowned Sewing Machines were awarded the Highest Premium at the World's Fair, in London, on six First Premiums at the N. Y. State Fair of 1866, and are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved mechanism, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, ELIAS HOWE, Jr., the original inventor of the Sewing Machine.

SEWING MACHINES!

THE GROVER & BAKER.

THE BEST IN USE.—These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are both alike, and have been attained by no other Machine.—They are the only Machines that will execute every kind of work, from the finest muslin and cambric to the coarsest woolen cloth, and exhibit the same perfection on each. Also the *Unrivaled Clothes Wringer*, in use there "the time-economizing time, labor, soap, fuel, &c.—shedding the necessity of washing, and rendering the person working neither wet nor weary without washing them themselves or the linen. It really merits all the good that can be said of it. We don't think there is a family, after fairly testing it, would dispense with it."

R. C. BROWNING.—*Dear Sir*:—We like our Machine much; could not be persuaded to do without it, and with the aid of Doty we feel that we are masters of the position. On one occasion the clothes were prepared, but the washerwoman failed us. We were not to be defeated that way. I took hold (which of course I should not have done had we been smiling), and in 35 hours we put through eleven dozen pieces, many of which were sheets, and they were well done, too. We wish you great success.

BLOOD! BLOOD!! BLOOD!!!

PURIFY YOUR BLOOD.

MAIZE'S BLOOD PURIFYING AGENT.

An effectual remedy in curing: Scrofula, Salt Rheum, Tetter, Ulcers and Sores, Blotches, Pimples, Tumors, Boils, Pustules, General Debility, Dyspepsia, Loss of Appetite, Female Irregularities and Complaints, and, in general, all diseases having their origin in an impure condition of the Blood, or a disordered state of the nervous system.

This medicine, the result of skillful and scientific combination, is a purely vegetable preparation, free from all injurious ingredients.

As its name indicates it renovates the Blood, purges out the corruptions that breed it it, restoring its health, tone and vitality, and striking at the very seat of disease eradicates every trace of it from the system, and gives it the healthful cheek, and health and vigor to the frame. Many diseases and much suffering are directly traceable to the impurity of the blood, and it is of the greatest importance to all that the blood which courses through every part of the system carry no poison or corruption with it. To suffer with blotches sores, pimples and eruptions and other diseases arising from impurity of the blood is no longer necessary, as the Blood Purifying Agent is sure and safe in its effects. Mothers having children suffering from eruptions of any kind will find it especially effective. The Proprietor has many testimonials from Clergymen and leading citizens of the county where the medicine is prepared certifying to the wonderful cures effected by it.

Beware of impostors. Examine every bottle. See that it has our private U. S. stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. THE GREAT CHOLERA

PREVENTATIVE.

1866. 1867.

THE GREAT

Zingari Bitters.

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheop an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in its vivid colors, and he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were showered upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription on it, was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a morbific accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the diffusive class of fevers.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon but not forced. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhœa, Dysentery, Scrofula, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anæmia, Female Irregularities, Dyspepsia, Flatulency, Colic, &c.
